

Fi Smart Homes is the Sunshine Coast's only specialist Automation & Home Entertainment Store - designing, selling and installing audio/visual and smart-home technology. We are expanding our operation and have a position available for a full-time custom electronics installer who is available for an immediate start.

We seek a self-motivated person with good people skills, a professional attitude, and a passion for leading edge residential electronic systems, to join our dedicated team.

The successful candidate will have

- A current Queensland electrical license
- A current unrestricted cabling license
- A Blue card
- A drivers license
- A minimum of a years experience in AV installation
- Demonstrated ability in methods, equipment and materials used in the installation, maintenance and troubleshooting of AV equipment.
- Advanced skills in the use of schematic diagrams and operating manuals used in the constructions and maintenance of AV systems.
- Experience in the installation and commissioning of Comms & Data systems.

Not essential but highly regarded would be

- Clipsal C Bus programming certification
- CEDIA installer certification
- Experience in Residential or Commercial installation of Security systems, Access Control and CCTV.
- Experience in managing and upskilling junior trades assistants

A company installation van and mobile phone will be provided.
Remuneration and other benefits will be tailored to the successful applicants experience.

- *Email your application to james.stewart@fiaudiovideo.com.au or post to fi Smart Homes, PO Box1570, Noosa Heads Q4567.*
