

Surround Custom Pty Ltd is one of Perth's leading residential automation and audio visual systems provider catering to the high end residential market. We are looking to fill a senior position suited to an individual who is passionate about professional audio visual installation.

Experience is expected (minimum two years), motivation and a "can do" attitude is also sought after and highly considered. We also expect any candidate to be willing and able to learn new skills and become familiar with new and emerging technologies.

The successful candidate must have:

- Drive, energy and enthusiasm to deliver excellent customer outcomes.
- A desire to learn and embrace new technologies.
- An ability to effectively fault-find and rectify system and equipment problems.
- Excellent soldering skills and a refined understanding of termination protocols.
- Confidant use of tools, not gun shy, not reckless.
- Excellent communication skills.
- Strong interpersonal and team building skills.
- An understanding and appreciation of OH&S and environmental issues.
- A refined appreciation of the requirements of working in prestige properties.
- An ability to work autonomously or within a team.

Having a background in Audio/Visual systems including the operation and installation of custom audio products and home theatre systems is essential; this is a professional occupation rather than a training exercise as we expect the successful candidate to be accomplished.

This includes termination of cables, installation of hardware including fixture devices such as flush speakers and wall mounted keypads along with mounting flat panel displays.

The role of an audio/visual installer in our organization requires the ability to work in a team environment as well as independently; above all else you must show responsibility and have pride in your workmanship.

CEDIA Training (Documented) and certification is highly sought after.

If you see yourself being part of our team and you have a passion for entertainment systems both moderate and impressive then please email your CV and cover letter directly to
